

STEM FOR ALL

LEADERSHIP SYMPOSIUM

November 14-15, 2025

San Diego Marriott Del Mar

Dear

The STEM4Real STEM For All Leadership Symposium is a unique collaborative conference where educators and administrators will learn how to Connect, Create, and Cultivate anti-racism in STEM teaching, learning, and leadership. I am eager to attend this professional learning event, scheduled for November 14-15, as this is a fantastic opportunity for me to learn practical skills to apply anti-racism and anti-bias practices in my classroom while also connecting with like-minded peers.

The STEM For All Leadership Symposium will give me the chance to attend keynotes, breakout sessions, and collaborative “squad sessions” and to develop a 3D5E lesson plan that can be used in my classroom. The breakout sessions include topics such as:

- Social Emotional Learning and Case Study Student Analysis
- Makerspaces for ALL: Incorporating Making into Science and Math Content
- AI in STEM: Leveraging Machine Learning in Mathematics and Science
- Antibias and Antiracism in STEM Systems

I will also have the chance to interact with VIP Scientists and industry experts as well as participating in demos and exploring new teaching and learning tools. In addition, I will be bringing multiple resources and materials home from the conference, allowing me to share what I have learned with peers in our school and district.

Offering opportunities for further learning and development is a great way to show your appreciation for the teaching profession and support for your staff. I hope you agree that my attendance at the STEM For All Leadership Symposium is a valuable investment that will help elevate the quality of instruction in my classroom.

Thank you for considering this request. Please let me know if there is any additional information I can provide.

Sincerely,
